Season overview

The 2023 Indian Premier League was the 16th IPL season. It ran from 31 March to 29 May 2023, featured 10 teams and 74 matches, and was organised by the BCCI.

The season restored the home-and-away format after a four-year break caused by pandemic-era venue restrictions. That made the tournament feel more like the older IPL and reconnected franchises with their home crowds.

Chennai Super Kings won the title by beating Gujarat Titans by five wickets in the final using the DLS method. The result gave Chennai a fifth IPL title, drawing level with Mumbai Indians.

Tournament structure and venues

The league retained the 10-team, 74-match structure from 2022, again using two groups of five teams for scheduling. Each side played 14 league matches before the playoffs.

The 2023 season also introduced the impact player rule and expanded use of DRS to wides and no-balls. Those were not minor tweaks; they changed match management and selection logic.

Playoffs and final

Chennai Super Kings beat Gujarat Titans in Qualifier 1 to reach the final directly. Mumbai Indians knocked out Lucknow Super Giants in the Eliminator, but Gujarat Titans then eliminated Mumbai in Qualifier 2.

The final was unusual because rain pushed the match to the reserve day and forced a revised chase. Gujarat Titans made 214/4, Chennai Super Kings were reset to 171 from 15 overs, and Chennai won by five wickets on DLS. Devon Conway was player of the match.

Match	Winner	Result	Venue

- The home-and-away format returned after four years, which restored the full travel and home-ground dimension of the IPL.
- The final stretched onto the reserve day because of rain, which made it one of the strangest and most dramatic IPL endings in recent memory.

-
- The impact player rule was introduced, and plenty of players and analysts questioned how much it distorted team balance, especially the value of all-rounders.
 - Gujarat Titans dominated the season statistically, topping the points table and sweeping several individual awards, but still lost the final.
 - Chennai Super Kings winning a fifth title mattered historically because it tied Mumbai Indians for the most IPL championships.
